Subject: "Concern Regarding Unjust Allegations Made Against Me"

Dear Sir,

I, Sourav Karmakar, a third-year student pursuing Information Technology in your esteemed institution, am writing to bring to your attention a concerning matter. I have recently been informed that some second-year students from S.N. Bose Hostel has lodged a complaint against me. To my dismay, I am unaware of the reasons behind their actions or the allegations they have raised with the anti-ragging cell because that is a false allegation against me .

Allow me to clarify the incident in question. On a particular day, while myself and fellow third-year students were in our respective rooms, we were disturbed by loud noises emanating from the terrace of the hostel. Upon investigation, we discovered that it involved second-year students, some of whom were also residents of J.C. Bose Hostel. They were engaged in heated arguments, using offensive language and displaying unruly behavior.

In an attempt to diffuse the situation and restore order, myself and other third-year students approached them and urged them to cease their quarrel.

However, the situation escalated when they began to insult my one of the 3rd year friend's parents using vulgar language, and pushed him on the heat moment. Importantly, senior students who were present at the scene can attest to the fact that my response was warranted given the circumstances.

I write to you, not only to clarify my stance but also to express my concern over the unjust accusations leveled against me. As a responsible member of this academic community, I am deeply troubled by the implications of such baseless allegations on my reputation and academic standing. Therefore, I humbly request a thorough investigation into the matter, ensuring that justice is served and the truth prevails

In conclusion, I wish to reaffirm my commitment to upholding the values of our esteemed institution and maintaining cordial relations among students. I trust that upon thorough investigation, the truth of the matter will come to light, and my reputation will be vindicated.

Thank you for your attention to this matter. I trust in your wisdom to address this issue impartially and restore fairness in this situation.

Sincerely,
Sourav karmakar (IT, 3rd year)
